## Technical Skills

---

HTML  
JavaScript  
CSS  
SASS  
jQuery  
OOP  
TDD  
VCS with GIT  
Maven  
Apache TomCat  
MYSQL  
JavaSE  
MVC  
Java EE(Servlets, JSP)  
Bootstrap Framework  
Spring Boot Framework  
Paired Programming

## Development Projects

---

### The Hobbit Manager CLI Application

A Java command line application built as a paired programming project for keeping track of contacts, giving the user the ability to view all contacts, and the option of adding, deleting and searching for a specific name. The theme of the Hobbit characters was added to personalize it.

### TASMD (The Adam Sandler Movie Database)

A JavaScript application built as a paired programming project with focus on all of the cinematic work of comedian/actor Adam Sandler as the central theme. After building the entire database using git and styled with Bootstrap, the app connects to a movies API and allows users to import, search, edit, delete, and rate information about movies.

### The Huskee Coffee Project

A Javascript application built as a paired programming project tailored for a fictitious coffee company with the intent of selling coffee to the consumer. The website displays currently available coffees, allows the user to search, customize, add and delete coffees. It takes into account the date and adopts a seasonal theme for the page. It also gives the user the ability to order grounds and Huskee Coffee Merchandise. The app connects to a map to location and also includes social media for the coffee (Facebook, Twitter and Instagram).

### Jack-of-All-Trade-Lister

A full stack, Java application built as a paired programming project to mimic a Angie'sList/Craigslist type website using the MVC design pattern (JSPs, Servlets, Java Beans, and BCrypt). As a site geared towards contractors who would like to advertise their services to visitors to the site have the ability to view and search listings. Registered users may also create and edit their own profile and listings.

### Capstone Project (upcoming)

A full stack application designed with Java, Spring Boot, MySQL, Thymeleaf, and CSS/SASS.

## Education

---

### **Codeup** 2021

San Antonio, Texas

A fully-immersive, project-based, and intensive 22-week full-stack Java career accelerator that provides students with 670+ hours of expert instruction in software development.

### **The University of Texas** 1995

Austin, Texas

Bachelors of Science in Elementary Education, Minor History

Texas Certifications

Elementary Art

History

Art Education - All Levels

## Professional Experience

---

### **LJS Homes, L.L.C. - San Antonio, Texas** 2010-Current

*Real Estate Investor and Developer*

- Research and evaluate real estate deals, analyzing cost and profit data in traditional real estate transactions
- Vet, hire and manage contractors during the entire renovation project
- Perform renovation tasks like demolition, construction, installation, painting, landscaping, moving, and staging

### **Graphic Designer - San Antonio, Texas** 2008-Current

- Meet and communicate with clients to assess their individual and company needs
- Plan concepts by studying relevant information and material.
- Illustrate concepts by designing examples of art arrangements, size, type size, color scheme, style using traditional graphic design instruments as well as the Adobe Creative Suite, then submit them for approval

### **Keystone School - San Antonio Texas** 2007 - 2020

*Visual Arts/Digital Media Instructor*

- Designed, developed and taught Pre-K3 - 12th grade Studio Visual Arts curriculum (Drawing, Painting, Printmaking, Sculpture, Textiles and Weaving, Art History and Movie-Making) and Middle School and Upper School Digital Media Curriculum(Adobe Creative Suite, Google Sites, Graphic Design, Desktop Publishing, 3D Printing, 3D Modeling, Photography, Movie Making, Animation, Audio, Augmented Reality and Web Design)
- Budgeted, ordered, purchased and inventoried materials and supplies for Elementary, Middle School and Upper School Art Programs
- Designed and delivered several professional development sessions on technology hardware and software integration in a traditional classroom on the department, school and district levels and at state and national conferences
- Recognized for exceptional collaboration in education by The Bill and Melinda Gates' Foundation ECET2.

### **The Bill and Melinda Gates' Foundation - Seattle, Washington**

2015

*ECET2/New York Times Teacher Appreciation Mural Project Artist*

- Worked collaboratively with a team to design and create a digital mural for The Bill and Melinda Gates' Foundation's ECET2 organization's Teacher Appreciation Week display on the NYTIMES.com's landing page (May 6th, 2015)

### **Cobb County ISD - Marietta, Georgia** 2015

*Professional Development - Keynote Speaker*

- Designed and delivered two one day professional development sessions on technology integration in the classroom, building of social media presence and the importance of creating a professional learning network.
